# A-Levels at ZENITH

A-Levels, a pre-university programme offered at Zenith, is based on the UK education system. Otherwise known as GCE Advanced Level, you can take this course after completing your SPM or IGCSE and before pursuing a degree at your preferred university. The programme is designed to be completed within 15 months.

## WHY YOU SHOULD TAKE A' LEVELS?

- Recognised by many universities worldwide** – A-Levels is well-known as the gold standard of pre-university courses, and is widely accepted by universities worldwide. While it is generally the go-to programme if you wish to study in the UK, it is also accepted by many other countries, including Australia, USA, Canada & Singapore.
- Keep your options open** - While Foundation programmes may limit you to certain degrees at certain universities, A-Level allows you to pursue a wide range of degrees upon successful completion. This is especially great if you're not sure what degree to study yet or where you're planning to pursue your degree.
- In-depth knowledge of subjects** - Instead of having to juggle five or six subjects, A-Level allows you to focus on only a few subjects and gain in-depth knowledge in your chosen subjects. This is great for those who are passionate about selected subjects and want to dive straight in.
- Wide range of resources** - Materials such as past year papers, marking schemes and revision questions are readily available for A-Level. Zenith will supplement you with sufficient resources to ace your exam, but if you don't think it's enough, the internet is filled with resources for you to go through and research.

Thousands of learners worldwide gain places at leading universities every year with the A-Levels qualification. The syllabuses develop a deep understanding of subjects and independent thinking skills.
